INCLUSION WEEK

21-26 NOVEMBER 2022

Group mobility of students: Manuel, Laurent, Lion, Roxana, Nikita, Alex C., Adrian C., Adrian G., Paul M., Mirela, Alin, Robert, Alex T., Paul B., Raul, Gabi, Catalin, Vlad, Luca.

Partnership between:

- Förderschule Zülpicher Straße Cologne, Germany
- Colegiul Tehnic Energetic, Cluj-Napoca, Romania

1st day-21 November 2022

The day to know each other!

First we played a game called "The Spider Net" where we had to say who we are.

After that we did "Noah's Ark". We had to read a text about a person with a problem. And had to find solutions in our group for the problem. We created a poster and presented it to the audience, at the end we had to draw an animal on the Ark.

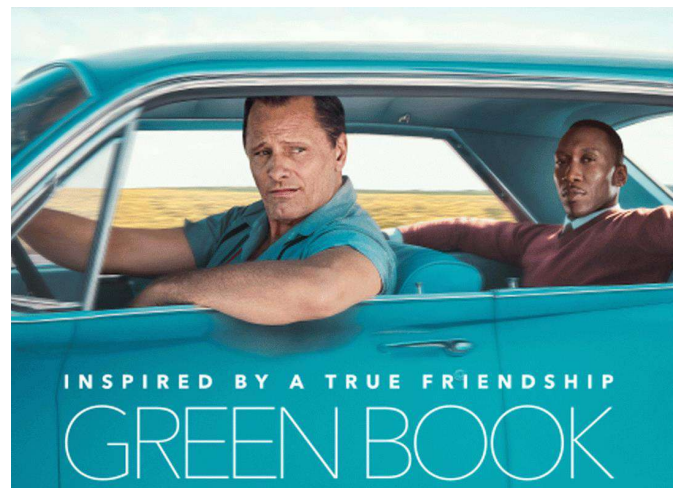

Last but not least we did a tour of the city center where Raul and Mirela told us interesting things about Cluj.

2nd day-22 november 2022

Watching the Green Book

On the 2nd day we watched the movie named „The Green Book’’. The movie is based on a true story, the story of Donald Walbridge Shirley, a famous pianist in the 1970’s. Even though he was a great pianist he was treated differently because of his skin colour.

A character that I think resonated with me was Tony Lip, an Italian American hired by Don Shirley to drive him around the country.

After seeing the movie we came back to school and discussed the message of the movie and what we were left with after watching it.

After all of these, we went on a walk to Cetatuie and The Central Park.

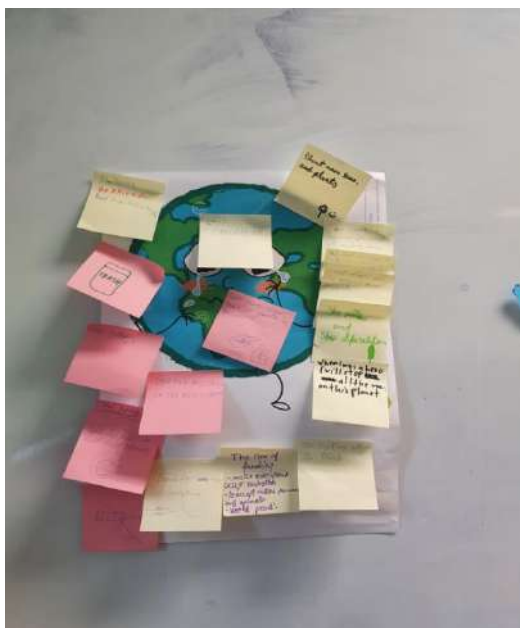

3rd day – 23 November 2022

Heal the world

There were more activities that we did about how we can make good changes

We had a kahoot with questions about acceptance and inclusion

Sports activities on teams. We played volleyball, football, basketball and ping pong.

We had a lot of fun!!

4th Day-24 November 2022

The importance of the ERASMUS projects

Our two schools did a presentation to show how important the ERASMUS activities actually are and how we can learn from each other.

At first we did a project called "Human Diversity" where students paint different human races

After that we tried to put the paintings in pairs (male and female) for all the races. The teacher tried to find out which picture belongs to each race.

Last but not least we did many sport activities. We did a fitness parkour with different teams. And of course my team won (from Laurent).

5th day-25 November 2022

The fun math and the Intercultural Treasure Hunt

On the first activity „The fun math’’ we had 5 pages with fun and easy problems. After the problems we had to make a puzzle.

After that, we had the Intercultural Treasure Hunt where we had 6 tasks to do. After each task we would gain a letter . At the end we had to construct a word with the letters „ EQUITY’’

1. In this activity there were numbers made of sticks and the numbers showed $6+4=4$. You had to move only one stick to make a correct calculation.

2. In this activity you needed to create an origami Lotus with instructions.

3. In this activity we had to turn a sheet while we were standing on it with our feet. After that, we needed to find the letter in the whole class.

4. We make the symbol of Romania and Germania from fruits and vegetables.

5. Within the 5th activity „Euro Fun Game” we answer some questions .

6. Within the 6th activity we cut out and built a tower from Cluj „Turnul Crioitorilor”.

6th day-27 november 2022

Salina Turda

On the 6th and last day we went on a trip where we visited Salina Turda, an old salt mine that has been closed since 1932 and now is used for tourism.

When we arrived there, a guide presented us part of the mine and showed us an old wooden mechanism that was used to bring the salt up from the mine.

We spent about 30 minutes with the guide and after that he left us in a part of the mine where we could do all sort of activities and buy souvenirs.

After we left the mine, we went to a restaurant to eat lunch and then we went home.
